Brand strategy

KAP CO packs and mills everyday dry staples: rice, groats, beans and lentils, and flours made from them. It is the KAP Holding company closest to the family's roots — food production — and the first one whose product sits on a kitchen shelf.

POSITIONING

A family-owned packer and miller of dry staples. Reliable origin, clean product, honest weight — supplied to retail chains, wholesalers and food producers with the flexibility of a company where decisions are made in one room.

MAIN MESSAGE

Staples, done properly.

SUPPORTING MESSAGES

Traceable origin for every lot. Cleaned, sorted and packed in Poland. Flours milled from the same grain and pulses we pack, so one supplier covers the whole range.

PROOF POINTS

Capital and management in the hands of one family since the 1970s. Food-production heritage: the Konspol project and the KONSDROB poultry business. The KAP group's four decades of business track record stand behind every delivery.

BRAND PERSONA

The family keywords carry over — *authority, security, partnership* — with three words that only a food company needs.

#origin #security #quality

#partnership #everyday #authority

#transparency

PRODUCT RANGE

Rice ryż	Groats kasze	Beans fasola	Lentils soczewica
Chickpeas & peas ciecierzycza, groch	Rice flour mąka ryżowa		
Bean flour mąka fasolowa	Lentil flour mąka z soczewicy		

Audience

Category buyers at retail chains, wholesalers, food producers using flours as ingredients, and, on the pack, the household cook.

Tone

Plain and exact. Weights, origins and lot numbers are part of the brand voice, not small print. No superlatives, no "premium".

02

One system, one more company

Every KAP company shares the same construction: **KAP** in Helvetica Bold, the company name in Helvetica Light, both in Dark Green, and the corner bracket in a colour that belongs to that company alone. KAP CO takes the bracket in **Harvest Gold**, and is the one member whose O carries a mark: a barley ear growing through it.

● Harvest Gold · #A68A4B

KONSDROB

KONSDROB

poultry, operating brand

same Dark Green, own wordmark

Why "CO"

Two letters, like RE, IN and VC. It reads as *commodities* and as *company*, and it keeps the lockup the same width class as its siblings.

Why a gold bracket

The family already owns red, orange, lime and purple. Harvest Gold is the colour of a ripe field and of the ear itself, so the bracket and the ear share one colour and read as one mark.

Where KONSDROB fits

KONSDROB is an operating brand with its own wordmark, but it shares the green and the Helvetica pairing. KAP CO answers KONSDROB's bird with a barley ear in its O (chapter 03). Both companies put the product inside the letter, in their own way.

03

Logotype

The primary logo is the two-colour version on white. Use the negative version on Dark Green and on photography; use the monochrome version only where colour is not available (engraving, single-colour print, fax-grade documents).

CONSTRUCTION

ELEMENTS

KAP

Helvetica Neue Bold

CO

Helvetica Neue Light

Bracket (brand mark)

0.56 H × 0.54 H

Bracket arm

0.17 H

All dimensions are multiples of the cap height **H**. The letterforms, the spacing between **KAP** and the suffix, and the bracket's size and offset are identical to KAP RE, KAP IN and KAP VC; only the suffix letters and the bracket colour change. The ear is centred on the O and drawn on top of it, four pairs of tapering grains on a single stem, so the O reads through the gaps between grains rather than being cut away.

Bracket above cap line	0.43 H
Gap KAP CO	0.14 H
Gap CO bracket	0.09 H
Ear height	1.42 H, tail 0.12 H below baseline
Ear grains	4 pairs + tip, tapering, 42°–14° spread
Letterforms	outlined, never retyped

Never rebuild the logo from live text. Use the SVG or PNG masters in chapter 08; Helvetica Neue is not installed on most machines, and a substituted font changes the widths.

Safe area

Keep a clear space of one cap height (H) on every side, measured from the bracket top and from the foot of the ear. Nothing enters this area: no text, no other logos, no edge of the page.

Minimum size

The family minimum is 35 mm wide in print, 120 px on screen. Below that the ear's grains merge, so use the simple version without the ear down to 20 mm / 70 px, and the bracket alone below that.

Business card, labels

35 mm print · 120 px screen

20–35 mm: simple version

Favicon / app icon: bracket only

With descriptor

For contexts where "CO" needs explaining: first-contact documents, trade fair walls, the website footer. Never on packaging, where the product name does the explaining.

Simple version, without the ear

For sizes under 35 mm, embroidery, engraving and single-colour stamps, where the ear's grains would merge into a blot. Same letters, same bracket; the O is whole. Never use it where the full logo fits.

INCORRECT USE

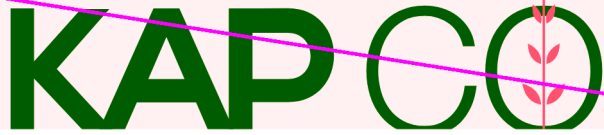

The image shows the logo 'KAP CO' in a dark green, bold, sans-serif font. A red diagonal line is drawn across the logo from the top-left to the bottom-right, indicating that the logo should not be stretched or condensed.

Do not stretch or condense.

The image shows the logo 'KAP CO' in a dark green, bold, sans-serif font. A red diagonal line is drawn across the logo from the top-left to the bottom-right, indicating that the logo should not be rotated.

Do not rotate; the bracket is the only angled reading.

The image shows the logo 'KAP CO' in a dark green, bold, sans-serif font. A red diagonal line is drawn across the logo from the top-left to the bottom-right, indicating that the logo should not be recolored. The background is a solid pink color.

Do not recolour the letters or move the bracket to a sibling's colour.

The image shows the logo 'KAP CO' in a dark green, bold, sans-serif font. A red diagonal line is drawn across the logo from the top-left to the bottom-right, indicating that the logo should not be placed on a low-contrast or busy background. The background is a solid dark green color.

Do not place the primary version on low-contrast or busy backgrounds; use negative.

The image shows the logo 'KAP CO' in a dark green, bold, sans-serif font. A red diagonal line is drawn across the logo from the top-left to the bottom-right, indicating that the logo should not be dropped. The background is a solid light beige color.

Do not drop the ear where the full logo fits; the simple version is for small sizes only.

The image shows the logo 'KAP CO' in a dark green, bold, sans-serif font. A red diagonal line is drawn across the logo from the top-left to the bottom-right, indicating that the logo should not be enlarged. The background is a solid light beige color.

Do not enlarge the bracket or the ear; both are locked to the cap height.

Colours

Two colours come from the family and are not negotiable. One colour identifies KAP CO. The harvest palette is for packaging and campaign work: it is what lets a rice pack and a lentil pack sit side by side and still read as one range.

PRODUCT SHEET · RICE

Long-grain parboiled rice

Ryż długoziarnisty parboiled · 1 kg · 5 kg · 25 kg

Sourced from a single origin per lot, cleaned and optically sorted before packing. Cooking time 18–20 minutes; grains stay separate. Packed in a protective atmosphere in 1 kg retail pouches and 25 kg sacks for food service.

Lot 26-0912 · origin Thailand

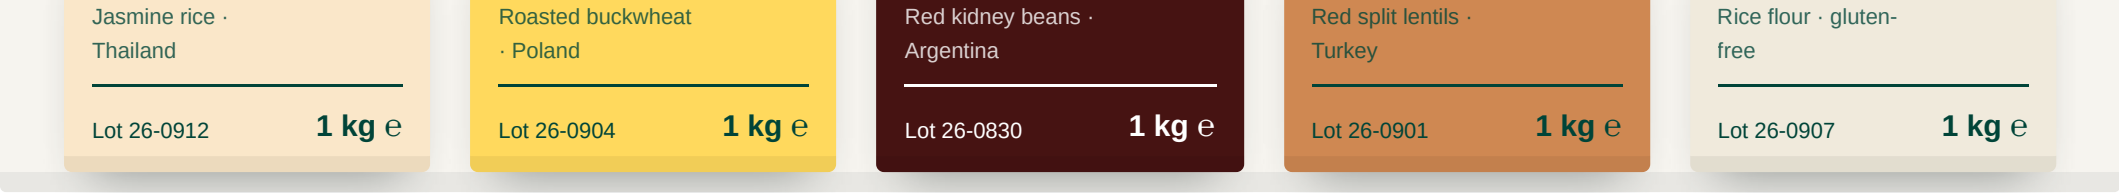

EAN 590 000 000 000 1

Packaging system

Colour is the first thing a buyer reads on a shelf, before any word. Each product group owns one harvest colour; the logotype, the type and the layout never change between groups. A new product gets its group's colour, not a new design.

Rice ryż Champagne #FAE7C9	Groats kasze Mustard #FFD95D	Beans fasola Black Bean #461312
Lentils soczewica Persian Orange #CF8852	Chickpeas, peas ciecierzyca, groch Moss #576238	Flours mąki Eggshell #F0EADC

FRONT PANEL ANATOMY

1. **Logotype** top left, Dark Green on light grounds, negative with Harvest Gold bracket and ear on Black Bean and Moss. Width: 40–45 % of the panel.
2. **Product group** top right in small caps, Polish and English.
3. **Product name** in Helvetica Neue Light, Polish first, then the English name and origin in one line.
4. **Window** on the right: the product is the picture. No photography of fields or bowls on the front.
5. **Net weight** with the e mark, bold, bottom right, and the lot number bottom left: honest weight is the brand promise, so it is set as a feature.

BACK PANEL

6. **Nutrition table** per 100 g in a bordered box on white, as required by Regulation (EU) 1169/2011.
7. **Origin, best-before and lot** repeated as a block, never split across seams.
8. **Producer line:** KAP CO sp. z o.o., address, and the KAP Holding endorsement in Regular, one size below.

Producent: KAP CO sp. z o.o. · spółka grupy KAP Holding

The family pattern: the bracket repeated on a square grid, in Harvest Gold on white or in a lighter green on Dark Green. For sack liners, tissue paper, box interiors and trade-fair walls. Keep it under 20 % contrast so the logotype on top stays legible.

07

Stationery

The same layouts as the other KAP companies: white front with the logo top left and the bracket in the top right corner, a full-green back with the negative logo. E-mail signatures use Arial, the logo as a linked PNG, and nothing animated.

Dzień dobry,

w załączeniu przesyłam specyfikację soczewicy czerwonej wraz z cennikiem na IV kwartał. Próbki 1 kg wysyłamy w tym tygodniu.

Pozdrawiam

Anna Kowalska

The K, A, P letterforms and the bracket are taken from the KAP IN master vectors; C and O are set in Helvetica Neue Light at the same cap height and outlined. Harvest Gold and the harvest palette are specified in HEX/RGB; Pantone references should be confirmed on a press proof before the first print run, as the family guidelines did for the core colours.
